Experience

Freelance

Website Developer

May 2016 - Present

Design and maintain websites employing Wordpress, HTML/CSS, Bootstrap, Ruby and Javascript.

ICT Technician

May 2004 - Present

Build and maintain computer systems. Also, repair mobile phones and two-way radios. This includes the programing and aligning of Motorola Radios and creating their templates.

Motorola Solutions Inc.

Coordinator

August 2015 - Present

Provide technical support for the computer systems and office equipment. Program and maintain VOIP Phone system. Coordinate projects and preventative maintenance for customer's two radio systems. Troubleshoot, test and program two-way radios brought in for PM's or repair.

Education

University of Central Florida

Full-stack Web Development Certificate

May- November 2019

Through this course I have gained a fundamental working knowledge of HTML, CSS, JavaScript, jQuery, Firebase, Node.js, Express.js, MySQL, MongoDB, Mongoose, Ruby on Rails, & React.js. Also, the ability to work with diverse teams on demanding time-lines to build fully functional web applications from start to finish and the skills necessary to learn new technologies & resolve issues independently.

The National Computing Center

AS. Computing and Information Systems
